- Teamwork
- Leadership
- Responsibility
- Problem-solving
- Critical Thinking
- Time Management
- Project Management

PROFILE

I am Sophea Phal, a second-year Web Development student at Passerelles Numériques Cambodia (PNC). I have hands-on experience in building responsive websites and deploying web applications using modern web technologies. I am passionate about clean code, teamwork, and continuous learning. I am currently seeking a web development internship or junior role where I can apply my technical skills and continue growing in a professional environment.

EXPERIENCE

● VIRTUAL COMPANY-I PROJECT – CHOMNUOY SYSTEM

- Project duration: 15 Feb 2026 - 6 Apr 2026
- Position: Scrum Master & Full-Stack Developer
- Tool: Laravel, PHP, React.js, MySQL, Redis, Git, and GitHub
- Role and responsibility: Led a 5-member team in developing the Chomnuoy System, built donation management features, developed full-stack functionalities, and managed team collaboration using Git & GitHub
- Repository:
 - Backend: [Really Great Company](#)
 - Frontend: [Really Great Company](#)

● JAVASCRIPT PROJECT – QUIZ WEBSITE

- Project duration: 22 Dec 2025 - 5 Jan 2026
- Position: Project Manager & Front-End Developer
- Tools: HTML, CSS, JavaScript, Bootstrap, Git, GitHub, and Jira
- Role and responsibility: Collaborated in a 3-member team to develop an interactive quiz website, implemented quiz features including timer, scoring, and instant feedback, and managed team workflow using Jira and Git & GitHub during Week 2
- Repository:
 - <https://github.com/leak1415/quiz-website.git>

- Vue.js
- Node.js
- React.Js
- TypeScript
- MySQL
- GitHub
- Laravel
- Laragon
- SQLite
- ReactJs
- JavaScript
- HTML, Sass, CSS & Bootstrap 5

TOOLS

- Git
- Jira
- AWS
- Canva
- Figma
- Vercel
- Netlify
- Render
- Docker
- Draw.io
- Firebase
- Postman
- AI Tools (ChatGPT, Grok, Poe, DeepSeek)
- MS - Office (Word, Excel, PowerPoint)

LANGUAGES

- Khmer: Mother Tongue
- English: Intermediate

● SOFTWARE DEPLOYMENT PROJECT

- Project duration: 15 Dec 2025 - 21 Dec 2025
- Position: Deployment Engineer
- Tools: AWS, WordPress, Laravel, React.js, Next.js, MySQL, and Linux Server
- Role and responsibility: Deployed WordPress, Laravel, React.js, and Next.js applications on AWS; configured servers, databases, and domains for stable deployment; and gained hands-on experience in cloud deployment and server management

● ALGORITHMS PROJECT – STUDENT NEWS WEB APPLICATION

- Project duration: 20 Oct 2025 - 2 Nov 2025
- Position: Back-End Developer
- Tool: Flask, Python, SQLite, HTML, CSS, JavaScript, Git, and GitHub
- Role and responsibility: Developed a Student News web application using Flask and SQLite, implemented backend database integration for publishing and managing news articles, and designed responsive user interfaces with HTML, CSS, and JavaScript
- Repository:
 - <https://github.com/sopheha06/Student-News.git>

● WEB DESIGN PROJECT – PORFOLIO WEBSITE

- Project duration: 2 Sep 2025 - 8 Oct 2025
- Position: Front-End Developer
- Tool: HTML, CSS, SASS, Git, and GitHub
- Role and responsibility: Designed and developed a personal portfolio website individually, created responsive web pages using HTML, CSS, and SASS, and managed source code using Git & GitHub
- Repository:
 - <https://github.com/sopheha06/My-project-web-design.git>

● GITHUB PROJECT – RESPONSIVE WEBSITE

- Project duration: 26 Aug 2025 - 8 Sep 2025
- Position: Front-End Developer
- Tool: HTML5, CSS3, Git, GitHub, and Vercel
- Role and responsibility: Collaborated in a 3-member team to develop a responsive website using HTML5 and CSS3, managed version control and code reviews with Git & GitHub, and contributed to deployment on Vercel and project documentation
- Repository:
 - <https://github.com/sopheha06/project-1.git>

H O B B I E S

- Volunteering
- Reading tech articles
- Learning new web technologies
- Building small web projects
- Exploring UI/UX design
- Collaborating with peers on coding tasks
- Join a workshop about technology.
- Self-development podcast listener
- Join the competition.
